NOTTINGHAM UNIVERSITY

COST EFFECTIVE SOLUTIONS

ABOUT & BACKGROUND

The University of Nottingham is ranked in the UK's Top 10 & World's Top 75 universities by the Shanghai Jiao Tong (SJTU) & QS World University Rankings.

The University provides innovative & top quality teaching, undertakes world-changing research & attracts talented staff & students from 150 nations. Described by The Times as "the nearest Britain has to a truly global university", it has invested continuously in award-winning campuses in the United Kingdom, China & Malaysia.

The University of Nottingham were looking for a local company that could provide SIP trunks into their current PBX network.

CHALLENGE

Following a recent installation of a SIP telephony system, the University of Nottingham planned to migrate the existing 11,000 analogue telephone users over to this technology over a number of years.

SOLUTION

The University of Nottingham connected their SIP telephony system to Node4, making full use of the trunks for outbound calls.

Direct Dial numbers were later ported over from another

"Node4 were very accommodating in meeting our needs, ensuring we got the best cost-effective solution"

Anthony Tunley, Telecoms Group Leader

provider to Node4 to give a local number presence at the School of Nursing site in Mansfield. Node4 have provided DDI ranges for other remote Nursing centres in Lincoln, Boston & Grantham via the link at Nottingham.

"After the success of SIP trunking, we had an urgent requirement for internet connectivity for our commercial tenants. We were experiencing congestion problems with our existing commercial link & needed a quick resolution. Node4 were able to provide an extremely competitive cost to provide a link in a timely manner. The connection was installed & has solved our problems..."

Anthony Tunley, Telecoms Group Leader
