

Payment Card Industry (PCI) Data Security Standard

Attestation of Compliance for Onsite Assessments – Service Providers

Version 3.2.1

June 2018

Section 1: Assessment Information

Instructions for Submission

This Attestation of Compliance must be completed as a declaration of the results of the service provider's assessment with the *Payment Card Industry Data Security Standard Requirements and Security Assessment Procedures (PCI DSS)*. Complete all sections: The service provider is responsible for ensuring that each section is completed by the relevant parties, as applicable. Contact the requesting payment brand for reporting and submission procedures.

Part 1. Service Provider and Qualified Security Assessor Information								
Part 1a. Service Provider Organization Information								
Company Name:	Node4 Ltd		DBA (doing business as):	Node4				
Contact Name:	Vicky Withey		Title:	Head of Compliance				
Telephone:	+44 845 1232222		E-mail:	v.withey@node4.co.uk				
Business Address:	Unit 1, Millennium	Way	City:	Derby				
State/Province:	Derbyshire Country: United Kingd			m	Zip:	DE24 8HZ		
URL:	www.node4.co.uk							

Part 1b. Qualified Security Assessor Company Information (if applicable)							
Company Name:	Sec-1 Ltd	Sec-1 Ltd					
Lead QSA Contact Name:	Stuart Pilkington	Stuart Pilkington Title: Senior Security					
Telephone:	+44 1924 284240		E-mail:	stuartp@sec-1.com			
Business Address:	Unit 1 Centre 27 E Park, Bankwood V		City:	Birstall			
State/Province:	West Yorkshire	Country:	United Kingdo	om	Zip:	WF17 9TB	
URL:	www.sec-1.com						

Part 2a. Scope Verification								
Services that were INCLUDED in the scope of the PCI DSS Assessment (check all that apply):								
Name of service(s) assessed: Node4 Data Centre Co-Location Physical Security								
Type of service(s) assessed:								
Hosting Provider:	Managed Services (specify):	Payment Processing:						
☐ Applications / software	☐ Systems security services	☐ POS / card present						
☐ Hardware	☐ IT support	☐ Internet / e-commerce						
☐ Infrastructure / Network	☐ Physical security	☐ MOTO / Call Center						
□ Physical space (co-location)	☐ Terminal Management System	□ATM						
☐ Storage	Other services (specify):	Other processing (specify):						
□ Web								
☐ Security services								
☐ 3-D Secure Hosting Provider								
☐ Shared Hosting Provider								
Other Hosting (specify):								
☐ Account Management	☐ Fraud and Chargeback	☐ Payment Gateway/Switch						
☐ Back-Office Services	☐ Issuer Processing	☐ Prepaid Services						
☐ Billing Management	☐ Loyalty Programs	☐ Records Management						
☐ Clearing and Settlement	☐ Merchant Services	☐ Tax/Government Payments						
☐ Network Provider								
Others (specify):								
Note: These categories are provide	ed for assistance only, and are not inte	nded to limit or predetermine						

Part 2a. Scope Verification (continued)							
Services that are provided by the service provider but were NOT INCLUDED in the scope of the PCI DSS Assessment (check all that apply):								
Name of service(s) not assessed: Hosting Managed Services								
Type of service(s) not assessed:								
Hosting Provider: Applications / software Hardware Infrastructure / Network Physical space (co-location) Storage Web Security services 3-D Secure Hosting Provider Shared Hosting Provider Other Hosting (specify):	Managed Services Systems security IT support Physical security Terminal Manage Other services (s	services ement System	Payment Processing: POS / card present Internet / e-commerce MOTO / Call Center ATM Other processing (specify):					
Account Management	Fraud and Charg		Payment Gateway/Switch					
Back-Office Services	Issuer Processing		☐ Prepaid Services					
Billing Management	Loyalty Programs		Records Management					
☐ Clearing and Settlement	☐ Merchant Service	es	☐ Tax/Government Payments					
☐ Network Provider								
Others (specify):								
Provide a brief explanation why any checked services were not included in the assessment:		with the co-loo physical secu The other man are not includ security is cur	provider assessment is concerned cation service only, with only the rity requirements being in-scope. In aged services provided by Node4 ed in the assessment as physical rently the only service that Node4 er requesting evidence of PCI DSS gainst.					

Part 2b. Description of Payment Card Business Describe how and in what capacity your business Node4 does not store, process or transmit stores, processes, and/or transmits cardholder data. CHD, meaning there is no formal CDE. Node4 provides co-location hosting services, which is scope of this assessment. assessment is therefore against requirement 9 physical security requirements and requirement 12 of the PCI DSS. Describe how and in what capacity your business is For Node4's co-location hosting services, the otherwise involved in or has the ability to impact the data centres could host a client's cardholder security of cardholder data. environment, therefore if physical security is compromised by a malicious actor it may be possible that CHD being processed by Node4's clients could be put at risk. As such, the in scope co-location services that Node4 provides can impact on the security of customers' cardholder data environments. Part 2c. Locations List types of facilities (for example, retail outlets, corporate offices, data centers, call centers, etc.) and a summary of locations included in the PCI DSS review. **Number of facilities** Type of facility: Location(s) of facility (city, country): of this type Example: Retail outlets 3 Boston, MA, USA Wakefield, Derby & Northampton, United Data centres 3 Kingdom Part 2d. Payment Applications Does the organization use one or more Payment Applications? Yes No Provide the following information regarding the Payment Applications your organization uses: **PA-DSS Listing Expiry Payment Application** Version **Application** Is application PA-DSS Listed? Number Vendor date (if applicable) Name ☐ Yes ☐ No ☐ Yes ☐ No ☐ Yes ☐ No ☐ Yes ☐ No ☐ Yes ☐ No

☐ Yes ☐ No

Security Standards Council					
		☐ Yes ☐ No			
		☐ Yes ☐ No			
Part 2e. Description	of Environment				
Provide a <u>high-level</u> descovered by this assessm	scription of the environment ent.	The environment covered by the assessment is the three data centres owned and operated by Node4. The data centres are all located in the			
environment (CDE).	out of the cardholder data	United Kingdom, in Wakefield, Derby and Northampton. The assessment is against the physical security of the data centres, so is			
devices, databases, w	nents within the CDE, such as POS eb servers, etc., and any other mponents, as applicable.	against the applicable re Requirements 9 and 12	•		
Does your business use environment?	☐ Yes ⊠ No				
(Refer to "Network Segn segmentation)					

Part 2f. Third-Party Service Providers							
Does your company have a relathe purpose of the services being	☐ Yes ⊠ No						
If Yes:							
Name of QIR Company:							
QIR Individual Name:							
Description of services provided	d by QIR:						
example, Qualified Integrator Re	esellers (QIR), g osting companie	e or more third-party service providers (for lateways, payment processors, payment es, airline booking agents, loyalty programing validated?	☐ Yes ⊠ No				
If Yes:							
Name of service provider:	Description o	f services provided:					
Not Applicable	Not Applicable						
Note: Requirement 12.8 applies to all entities in this list.							

Part 2g. Summary of Requirements Tested

For each PCI DSS Requirement, select one of the following:

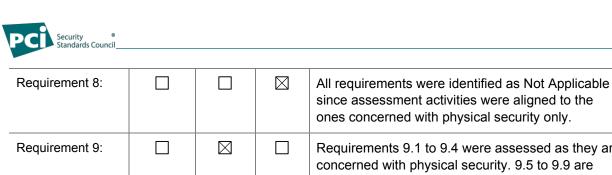

- **Full** The requirement and all sub-requirements of that requirement were assessed, and no sub-requirements were marked as "Not Tested" or "Not Applicable" in the ROC.
- **Partial** One or more sub-requirements of that requirement were marked as "Not Tested" or "Not Applicable" in the ROC.
- None All sub-requirements of that requirement were marked as "Not Tested" and/or "Not Applicable" in the ROC.

For all requirements identified as either "Partial" or "None," provide details in the "Justification for Approach" column, including:

- Details of specific sub-requirements that were marked as either "Not Tested" and/or "Not Applicable" in the ROC
- Reason why sub-requirement(s) were not tested or not applicable

Note: One table to be completed for each service covered by this AOC. Additional copies of this section are available on the PCI SSC website.

Name of Service A	of Service Assessed: Node4 Da			Data Centre Co-Location Physical Security			
		Details of Requirements Assessed					
PCI DSS Requirement	Full	Partial	None	Justification for Approach (Required for all "Partial" and "None" responses. Identify which sub-requirements were not tested and the reason.)			
Requirement 1:				All requirements were identified as Not Applicable since assessment activities were aligned to the ones concerned with physical security only.			
Requirement 2:				All requirements were identified as Not Applicable since assessment activities were aligned to the ones concerned with physical security only.			
Requirement 3:				All requirements were identified as Not Applicable, apart from requirements 3.2.1, 3.2.2 and 3.2.3.			
Requirement 4:			\boxtimes	All requirements were identified as Not Applicable since assessment activities were aligned to the ones concerned with physical security only.			
Requirement 5:			\boxtimes	All requirements were identified as Not Applicable since assessment activities were aligned to the ones concerned with physical security only.			
Requirement 6:			\boxtimes	All requirements were identified as Not Applicable since assessment activities were aligned to the ones concerned with physical security only.			
Requirement 7:				All requirements were identified as Not Applicable since assessment activities were aligned to the ones concerned with physical security only.			

·	_		since assessment activities were aligned to the ones concerned with physical security only.
Requirement 9:			Requirements 9.1 to 9.4 were assessed as they are concerned with physical security. 9.5 to 9.9 are marked as Not Applicable as they are not concerned with physical security.
Requirement 10:			All requirements were identified as Not Applicable since assessment activities were aligned to the ones concerned with physical security only.
Requirement 11:			All requirements were identified as Not Applicable since assessment activities were aligned to the ones concerned with physical security only.
Requirement 12:			All requirements apart from 12.3 and 12.8 are inscope for the asessment. No critical technologies were in scope and Node4 does not have any service providers in scope.
Appendix A1:			All requirements were identified as Not Applicable since assessment activities were aligned to the ones concerned with physical security only.
Appendix A2:			All requirements were identified as Not Applicable since assessment activities were aligned to the ones concerned with physical security only.

Section 2: Report on Compliance

This Attestation of Compliance reflects the results of an onsite assessment, which is documented in an accompanying Report on Compliance (ROC).

The assessment documented in this attestation and in the ROC was completed on:	13th August	2021
Have compensating controls been used to meet any requirement in the ROC?	☐ Yes	⊠ No
Were any requirements in the ROC identified as being not applicable (N/A)?	⊠ Yes	☐ No
Were any requirements not tested?	☐ Yes	⊠ No
Were any requirements in the ROC unable to be met due to a legal constraint?	☐ Yes	⊠ No

Section 3: Validation and Attestation Details

Part 3. PCI DSS Validation

This AOC is based on results noted in the ROC dated 13th August 2021.

Based on the results documented in the ROC noted above, the signatories identified in Parts 3b-3d, as applicable, assert(s) the following compliance status for the entity identified in Part 2 of this document (check one):

Compliant: All sections of the PCI DSS ROC are complete, all questions answered affirmatively, resulting in an overall COMPLIANT rating; thereby Node4 Ltd has demonstrated full compliance with the PCI DSS.								
Non-Compliant: Not all sections of the PCI DSS ROC are complete, or not all questions are answered affirmatively, resulting in an overall NON-COMPLIANT rating, thereby (Service Provider Company Name) has not demonstrated full compliance with the PCI DSS.								
Target Date for Compliance:								
, ,	ith a status of Non-Compliant may be required to complete the Action Check with the payment brand(s) before completing Part 4.							
Compliant but with Legal exception: One or more requirements are marked "Not in Place" due to a legal restriction that prevents the requirement from being met. This option requires additional review from acquirer or payment brand.								
If checked, complete the following:								
Affected Requirement Details of how legal constraint prevents requirement being me								

Part 3a. Acknowledgement of Status Signatory(s) confirms: (Check all that apply) \boxtimes The ROC was completed according to the PCI DSS Requirements and Security Assessment *Procedures*, Version 3.2.1, and was completed according to the instructions therein. \boxtimes All information within the above-referenced ROC and in this attestation fairly represents the results of my assessment in all material respects. I have confirmed with my payment application vendor that my payment system does not store sensitive authentication data after authorization. \boxtimes I have read the PCI DSS and I recognize that I must maintain PCI DSS compliance, as applicable to my environment, at all times. \boxtimes If my environment changes, I recognize I must reassess my environment and implement any additional PCI DSS requirements that apply.

Part 3a. Acknowledgement of Status (continued) No evidence of full track data¹, CAV2, CVC2, CID, or CVV2 data², or PIN data³ storage after transaction authorization was found on ANY system reviewed during this assessment. ASV scans are being completed by the PCI SSC Approved Scanning Vendor (ASV Name) Part 3b. Service Provider Attestation Signature of Service Provider Executive Officer 1 Date: 13/08/2021 Title: Head of Compliance Service Provider Executive Officer Name: Vicky Withey Part 3c. Qualified Security Assessor (QSA) Acknowledgement (if applicable) If a QSA was involved or assisted with this QSA conducted a partial ROC assessment against the assessment, describe the role performed: requirements applicable to physical security of the Node4 data centres. Date: Signature of Duly Authorized Officer of QSA Company 1 13th Aug 2021 Duly Authorized Officer Name: Stuart Pilkington QSA Company: Sec-1 Ltd Part 3d. Internal Security Assessor (ISA) Involvement (if applicable) If an ISA(s) was involved or assisted with this assessment, identify the ISA personnel and describe the role performed:

Data encoded in the magnetic stripe or equivalent data on a chip used for authorization during a card-present transaction. Entities may not retain full track data after transaction authorization. The only elements of track data that may be retained are primary account number (PAN), expiration date, and cardholder name.

The three- or four-digit value printed by the signature panel or on the face of a payment card used to verify card-not-present transactions.

³ Personal identification number entered by cardholder during a card-present transaction, and/or encrypted PIN block present within the transaction message.

Part 4. Action Plan for Non-Compliant Requirements

Select the appropriate response for "Compliant to PCI DSS Requirements" for each requirement. If you answer "No" to any of the requirements, you may be required to provide the date your Company expects to be compliant with the requirement and a brief description of the actions being taken to meet the requirement.

Check with the applicable payment brand(s) before completing Part 4.

PCI DSS Requirement	Description of Requirement	DSS Req	Compliant to PCI DSS Requirements (Select One) Remediation D Actions (If "NO" selected	
		YES	NO	Requirement)
1	Install and maintain a firewall configuration to protect cardholder data			
2	Do not use vendor-supplied defaults for system passwords and other security parameters			
3	Protect stored cardholder data			
4	Encrypt transmission of cardholder data across open, public networks			
5	Protect all systems against malware and regularly update anti-virus software or programs			
6	Develop and maintain secure systems and applications			
7	Restrict access to cardholder data by business need to know			
8	Identify and authenticate access to system components			
9	Restrict physical access to cardholder data			
10	Track and monitor all access to network resources and cardholder data			
11	Regularly test security systems and processes			
12	Maintain a policy that addresses information security for all personnel			
Appendix A1	Additional PCI DSS Requirements for Shared Hosting Providers			
Appendix A2	Additional PCI DSS Requirements for Entities using SSL/early TLS for Card- Present POS POI Terminal Connections
