enabling business to do business

PRODUCT OVERVIEW

ENABLING BUSINESS

...to do business
Cloud • Colocate • Connect • Communicate

ABOUT OUR PRODUCTS

CLOUD

Virtual Servers • Storage • Backup Solutions • High Availability Disaster Recovery

Utilising enterprise class technology from VMWare, Cisco and EMC our team of expert engineers have designed and built a scalable and flexible multi-site virtualisation, storage and backup platform to deliver a range of solutions to suit your business needs now and in the future.

Whether you need a single development server, a load balanced dual-site set of web servers, a comprehensive Disaster Recovery strategy or a private virtualised environment we have a solution to suit you. With our simple intuitive system it is easy to create and manage virtual machines giving you time to focus on your business not your infrastructure.

COLOCATE

Full Racks • Bespoke Suites Managed Services • Disaster Recovery • National Network

We have made significant investment to design and build state-of-the-art facilities at Derby, Northampton and Leeds with the latest in security, power and cooling technology. We take care of ensuring stable conditions all day, every day with continuous power from dual feeds, resilient generators and UPS systems, redundant cooling infrastructure, cold aisle containment and VESDA fire suppression and protection.

With capacity for over 1500 racks we have space available now in multiple locations so we can meet your demands rapidly whether you need a single rack or a bespoke suite.

CONNECT

High Speed Internet • National MPLS • Business Broadband Bespoke & Managed Networks

With interconnects into networks including BT, Vodafone, TalkTalk Business, KCOM and Virgin Media, we have designed and built a resilient and flexible MPLS core network to deliver a range of cost-effective solutions to suit your business need, no matter what size or budget.

Whether you need a simple internet connection, a multiple site MPLS network option or fast access to your servers in our state-of-the-art Data Centres in Derby, Leeds and Northampton we have the right solution for you.

COMMUNICATE

SIP Trunks • IP Telephony Advanced Call Management Unified Communications

SIPLink, our scalable, distributed carrier grade SIP platform, enables thousands of top quality voice calls to be made each day with support for HD voice, dynamic call routing and UK and International number provisioning.

We use our years of expertise to deliver a variety of communications solutions hosted in our top tier Data Centres or at your office so you can save time and resource.

With a Node4 connection to deliver voice at your office locations we can guarantee the end-to-end delivery of your voice solution meaning you can enjoy quality assured communications and concentrate on your primary business.
